

SHIP BROKERAGE ONLINE PORTAL

Megalodon Marine Sdn. Bhd. provides an exclusive global platform for prospective buyers and sellers from around the world to meet.

We handle the buying and selling of existing or new ships, while discussing opportunities and market trends with ship owners, report on sales, value vessels, advise on finance and try to find ships for specific buyers' requirements. When a transaction of a vessel is intended, we engage in negotiation on behalf of the buyer and seller on price and terms and also provide a route to resolving any disputes which might arise. We specialize in the sales and purchase of workboats primarily tugboats, AHTs and offshore supply vessels.

For listing of your vessels on our website, enquiries and invitation for quotations, please kindly contact us by email. If the wanted or requested vessels by buyers are not available, we will aid in the sourcing of the vessels as per requested.
